Dear sirs,

Though not an American citizen, I'd like to complain about your dealing with the monopoly of the Microsoft company. I hate the way mr. Gates organises my computer and my work and insists on knowing better what I want. His arrogance beats everything. But far worse is the fact that there are no real alternatives. His monopoly is a very bad thing for the development of computer software and everything connected to it. Please take action.

Kind regards,

Onno Vinkhuyzen, The Netherlands
